

What the Wheat City Has Been Doing in the Building Line During the Present Season.

The Amount Foots Up to The Large Sum of \$403,550.

To the two further west, we come to the new building for the Bank of British North America. This is a large, three-story, white-brick building, ornamented with cut stone. It stands on the corner of Rosser Avenue and Tenth St., one of the best corners in the city. The building is very complete in all its details and is quite an ornament to the city as well as an evidence of the faith the moneyed institution, for which it is being built, has lost in the future of the city. The bank had barely been in business here a few days and the directors have seen fit to erect this fine structure to meet the requirements of their fast-growing business. The Bell Bros. are the contractors and cannot be too highly complimented on the manner in which they have carried out the terms of their agreement.

The next met with is the Post office—a massive structure of limestone and brick. It has a frontage on Rosser of eighty-one feet and a depth of forty feet. Its walls will be four feet thick so as not only accommodate the post-office officials, but also the other officials in the various departments under the supervision of the government in the city. Here, on its completion, will be located the offices of the Customs House, the Inland Revenue office, etc. The building, as might be expected, is built of the very best materials and in the most substantial manner, and stands as a monument of the interest taken in the city's welfare by the Dominion Government.

Adjoining this fine structure is another building, known as the Commercial branch in the city, and the erection of this fine building goes far to show that the directors must have found the business profitable and increasing. The building is situated on the corner of Tenth and Third streets, and is constructed of solid brick, faced with a nicely tinted red brick and limestone. The whole appearance of the building is, as we said, pleasing and does not give one the idea that he connects with such institutions.

Opposite to the Commercial bank, and with the proverbial strong vaults, a peep into which would go far to convince, that any attempt at burglary would prove a failure. Mr. Hanbury is also the contractor for this building and Mr. Wheeler of Winnipeg.

Opposite the new post office stands another imposing brick, built by one of our best-known business men, one of those who has "stayed by the city through good times and bad ones," and who has won the respect and esteem of his fellow citizens. He is now president of the firm of Fraser & Co. The business block now being finished is of very chaste design and is not at all unworthy of standing so near the last three buildings described. The structure is of red granite, and the facing brick colored red. The windows are of large plate glass well calculated to give abundance of light to the commodious store which occupies the entire lower flat. They find it to be advantageous to the business that they formed to erect such a fine block of buildings. Mr. Marshall was designer of the plans and the supervising architect of this structure, and Mr. Wheelerton the contractor, who has completed the work in the neat and

successful appearance of the building.

Amongst others of the many buildings erected this year and which may well be placed under the head of "Public" buildings, are the new building of the Public Light and Power Co. The new structure, if there is no building out of the many put up this year, that would go to show the advantages that have been reaped by those who have cast in their lot with the company is entirely composed of local men some of whom commenced in the city on a very limited capital indeed. The company only commenced operations last year and have had their own men taken on by the company and citizen, that they felt it a duty to build premises commensurate with their increasing business. The building is situated on Fourth street between 1st and 2nd streets. The structure is of brick and the interior is well laid out for convenience and safety. The new plant which is being put in has not been included in the cost given in schedule No. 1. The cost of the architect was \$1,000. Mr. Cape the contractor.

Nathan must be the buildings and improvement made by the N. P. R. He left out of the catalogue of "Public" buildings. Their station is not large but presents a very neat and substantial appearance. The new brick which will be here, has a "warm" look that will be doubtless be heightened when the "sunlight" lies deep and even on the large yard which surrounds it. Their freight cars, which are round house cars, are as large as the passenger cars. The N. P. R. are built with the evident intention of being easily enlarged when the business of the road requires it. The estimate of the cost of these improvements is set down at \$200,000. It is in the absence, however, of official information, we took the estimate of two

BRANDON MAIL.

THURSDAY, NOVEMBER 13, 1890.

UNITED STATES ELECTIONS.

Interest in the results of the elections held throughout the United States on the 4th inst., has not abated. That the Republicans were badly defeated is not only true but the defeat is far worse than at first supposed. The following is based on the latest returns. The new house will be composed of 233 Democrats and 99 Republicans. Amongst the states giving the Democrats a clean sweep are Florida, Georgia, Maryland, Mississippi, Montana, New Hampshire, Texas, Virginia, New York State and 21 Demos. to 13 Reps. Pennsylvania still continues her allegiance to the Republicans by 18 to 16. Sober in the history of nations has there been such a complete change of mind in so short a time as in the neighboring republic. Two short years ago the Republicans were placed in power by respectable majorities and now they are thrown out by large majorities.

Canada has been hitherto comparatively free from having a number of murderers under sentence of death at one time, that many of our people have begun to think that this country may be drifting into a state similar to some of the most lawless of the neighboring states. It does seem but that the Canadian people have on their hands no less than five condemned murderers awaiting the dread sentence of the law. To compare the state of affairs here at their worst with that of some of the lawless states of the Union is ridiculous. The Post Dispatch of St. Louis, Missouri states that there are at present in the jail of that city no less than twenty-seven prisoners charged with murder in the first and second degree. It is certainly bad enough for us to have the unusual large number of five men who have induced their lands in the life blood of their fellow men, but what is that number in the whole Dominion as compared with the number of twenty-seven in one city. As bad as our record at the present time in this particular is it is certainly a clean sheet in comparison with that of our neighbors.

Prior to the elections held last week in the adjoining Republie the name of Major McKinley of the tariff bill fame was prominently brought forward by many of the Republican press as a probable candidate for the presidency in 1892. Now that his famous bill is the acknowledged cause of the defeat of his party in the late election it is not at all unlikely that the Republican party will drop him like a hot potato.

MANITOBA PENITENTIARY.

SEALED TENDERS addressed to the undersigned, and endorsed "Tenders for Coal," will be received at the office of the Warden of Manitoba Penitentiary until Monday, November 18th, at 12 o'clock noon, for supplying coal to that institution for the season of 1890-91.

Hard Coal, 100 tons, more or less.
Soft Coal, 400 tons, more or less.

The supply to be delivered at the Penitentiary free of charge, whether for freight or any other description of incidental expenses.

The lowest tender not necessarily accepted.
S. J. BEIRSON, Warden.

MORTGAGE SALE

OF—
Valuable City Property.

UNDER and by virtue of the power of sale contained in a certain Indenture of Mortgage, there will be offered for Sale by Public Auction by Thos. W. Macdonald, Auctioneer, at the Langham Hotel, in the city of Brandon, the property of Manitoba, on Saturday, the twenty-ninth day of November, A. D. 1890, at 2 o'clock in the afternoon, all and singular that certain parcel or tract of land and premises situate, lying and being in the county of York, Manitoba, and province of Manitoba, and being composed of the south east quarter of section No. ten (10) in township 18, 60 and range nineteen (19) west of the first principal meridian in the Province of Manitoba.

Twenty per centum purchase price must be paid down at time of sale.

Further particulars and conditions of sale may be known at time of sale, or on application to H. J. Skinner, Esq., Brandon, Manitoba, or to W. A. Macdonald, Vendor's solicitor.

Brandon, Nov. 10th, A. D. 1890.

NEW BLOCK.

A BOON TO THE PROVINCE.

There are few in this immediate neighborhood but what must acknowledge that the establishment of the Experimental Farm at this point has been an advantage to Brandon and the surrounding district. We find a few, however, in this district, and still more from distant parts of the province, who from a lack of a proper understanding of the work that is being done by the superintendent and his assistants, try to make themselves and others believe that the farm is only a bill of exchange and does not show results at all commensurate with the outlay. These people are wrong and a visit to the farm during the growing season, or even at the present time would go far to convince the most unbelieving in its utility to the farm and the experiments tried thereon are now, and in the future will be far more so, of the greatest benefit to the province at large. There are few who have taken away with them new ideas of the best modes of preparing the soil for securing the largest yield for the smallest outlay. It has been a surprise to those acquainted with the fact that so few of the farmers (comparatively speaking) of the district have made a visit to the farm. It was also a surprise, and a pleasant one at that, to find so many of the farmer visitors from Ontario anxious to see the work done on this farm devoted to experiments. It has been the writers privilege to have accompanied a number of these on their trips and he has failed to find one of these visitors who did not give the government credit for the establishment of such a school for the benefit of the farmers of the province. Some of these men in a very free manner compared the advantage as now offered to farmers of obtaining the best information regarding their occupation with the lack of such when they had commenced to leave out a farm for themselves in the forests of Ontario. These men too irrespective of their political leaning gave the credit of the establishment of this and similar institutions to those to whom it belongs, viz: The Dominion Government and particularly the Hon. John Gilling, Minister of Agriculture.

The many experiments that are being carried on in testing the various kinds of fruit and forest trees are worthy of special mention as there is many a discontented prairie farmer whose frame of mind would surely be based the other way were he able to surround his home with trees of various kinds. Amongst the many of the trees and shrubs experimented on by Mr. Bedford is one in which considerable interest is taken as it will in the various forms of the prairie cause a complete and radical change in the appearance of things. We refer to a hedge plant which gives promise of soon doing away with the objectionable barbed wire fence. Mr. Bedford is so confident that this is going to be a success that he intends propagating it with all possible speed. A Winnipeg contemporary speaks of this plant in the following manner:

MANITOBA METHODIST MISSIONS.

The missionary committee of the Manitoba and Northwest conference met at Regina last week. The constitution of the committee comprises the superintendents of missions, the chairman of the several districts and one layman from each district. The following attended: Rev. James Woods, superintendent of missions; Rev. J. Semmens, representing Winnipeg district; Rev. J. A. McFarlane and O. H. Duggan, Manitoba district; Rev. T. Law-

son, Crystal City district; Rev. T. Ferrier and J. E. Sanders, Deloraine district; Rev. T. Argue, Portage la Prairie district; Rev. T. B. Beynon, B. A., and F. G. Lewis, Birtle district; Rev. A. Andrews and O. Nell, Brandon district; Rev. J. M. Harrison and B. P. Richardson, Regina district; Rev. A. B. Hanes, Calgary district; and Rev. Jno. McDougall, Saskatchewan district. The Rev. J. M. Harrison, president of conference, occupied the chair, and Rev. T. Ferrier was appointed secretary.

The total appropriation by the general board of missions for the mission work of the Manitoba and Northwest conference amounts this year to \$30,272. The basis of appropriation fixed by the general board and accepted by the committee is as follows: Married ordained men, \$300; single men, \$200; probationers, \$450; and the grant was apportioned as follows:

Winnipeg district	\$1,884
Morden district	161
Crystal City district	623
Deloraine district	623
Portage la Prairie district	479
Birtle district	2,479
Brandon district	308
Regina district	2,915
Calgary district	6,990

The net grant made enables the board to pay a larger percentage of the basis in annual work than in former years. Mr. O. H. Duggan, of Winnipeg, was elected by the laymen to attend the next meeting of the general board, to be held at St. John's, New Brunswick. The committee adjourned, to meet at Brandon next conference year.

MISS HELEN R. SINCLAIR.

OF Sisseton, Minn., writes that she has used Burdock Blood Bitters for loss of appetite and headache with the greatest benefit and hearty recommendation. Her experience is shared by thousands. B. B. B. is a specific for headache.

NOTICE.

NOTICE is hereby given that after the expiry of one month, previous publication of this notice in the Manitoba Gazette the persons hereinafter named will apply to His Honor the Lieutenant Governor in Council for the grant of a charter of incorporation, by Letters patent under the great seal of the Province, under the provisions of "The Manitoba Joint Stock Companies Incorporation Act" and amendments thereto. And:

1. The proposed corporate name of the company is "The Brandon Mail" Printing and Publishing Company limited.
2. The object for which incorporation is sought is to carry on a newspaper and job printing and publishing and a book binding business.
3. The business to be carried on in the City of Brandon.
4. The capital stock shall be \$10,000 in four hundred shares of \$25 each.
5. Cashed like and Dressed Beef, Pork, Mutton and Poultry.

P. DONALDSON,

Shop 12-14 Rosser Avenue, between 9th and 10th Streets.

THE C. P. R.'S ALL ROUND THE WORLD TRIPS.

"Summer tours" are offered by every railroad and steamship company, and at the present season the world's most famous, the C. P. R., is offering a series of trips, the first of which is now being advertised by the Canadian Pacific Railway and which will be a most enjoyable season in eastern Canada and the United States.

It is well known that the C. P. R. is the only line for the construction of a trans-Canada railway, and the connecting lines to be established on the Atlantic coast, the railway across Canada, and the further developments in the west to Australia.

SANDERS,

LOCAL NEWS

Mr. Alex. Spence, of St. John's, was in the city on Saturday last.

Consolidated Dickey, of Carberry, was in the city on Friday, and paid an office a pleasant visit.

There seems to be at present an epidemic of whooping cough amongst the children of St. John's.

The firm of South Bros., so long doing business in this city, has been dissolved. Mr. Thos. South retires from the firm.

The Rev. Mr. Rogers, the new pastor of St. Matthew's church, expected to arrive in the city from Montreal in the course of ten days.

When it was that Northern people going to hang in that hotel and elevator was that was going to be a question often asked in the city.

Members of the St. Andrew's Society, and the meeting to be held at the St. Andrew's hall, a full attendance of members is requested by the officers.

On Thanksgiving Day the clang of the fire alarm bell turned out the brigade and a large crowd of citizens in a hurry, false alarm, no fire, boys wanted a run.

Messrs. Alexander, Kelly and Co. intend to commence the erection of a large elevator on the side of the spin rack now being put in by the C. P. R. just their mill.

Alderman Caldwell's contention at the council meeting re obstructing the streets has been primitive of good as building materials are being placed in more convenient form.

Dr. M. S. Fraser, lately practicing at St. John's, left last week for England to take a course of lectures in London. With his bright intellect and his high professional standing, it is hoped his health will return with a large increase of knowledge.

Mr. J. D. McGeehan returned home on Thursday evening from Montreal where he had been with a trainload of fat cattle. The Montreal market, not being into the cattle were shipped to England.

The present week has been one of "Self Denial" with the members of the Salvation Army. We do not know as they had a good deal, but it is certainly in the vigor with which they play their music on the streets.

As an instance of how heavy the express charges are in this part of the city, we would mention that a box arrived in the city from Montreal the contents of which were worth \$5.00 but the express charges amounted to the total sum of \$9.75.

Some of the wheat buyers here at not all satisfied with the grading of their wheat at Port Arthur. One shipper informed us that he had shipped last week's crop of last year's wheat that would have easily graded last season No. 2 but at the inspector at the Port only made it North on this time.

Mr. Wm. Palmer, foreman for the American Plumbing Co. of Winnipeg, is in charge of the plumbing work of the Merchants' bank new building as also that in the house of Mr. R. F. Edgar's private residence. Mr. Palmer has had a long experience in his business, and the best apparatus that he puts in will no doubt give good satisfaction.

Amalgamation is the term used to the sheets and men of A Company, of the Red River, for the sharing of a report of their own and support not having appeared in their last post. Not being present on could not give account and the member of the company who promised to make account for us, failed to do so. Better luck next time boys.

A few of the Toronto visitors are still in the city and the steady and continuous morning line of grain taken in on Friday and Saturday last completely drew the amount of their sale. They will have something to say to all their families and neighbors when they get back as to Brandon's wheat market and the capabilities of the surrounding country.

Mr. D. S. Sutherland, farming near Alex. made but business in the furniture last week in the city was in a room last week. There was a completely astonished at the progress Brandon has made in the building line this season. He thought the unexpected had been "blowing" as much but he now thinks like the Queen of Sheba that the hall had not been told him.

The Union Thanksgiving service held last Thursday in the Methodist hall was well attended by the members of the different congregational churches. Striking addresses were delivered by the Revs. C. Graham, Jenkins, Pickett and Mason. The singing by the united choir was good and much appreciated by those present. The collection in aid of the hospital funds amounted to \$5.

The men who went out some time ago to bring down Mr. Christie's boat that was in the Little Saskatchewan above Minneapolis returned to the city on Friday. They started the drive and got some of the legs as far as Rapid City but most of them are in the river between that point and Minneapolis. There were a little less in commencing operations as they had to quit owing to ice forming in the river.

There was a quartette of hard looking fellows before the bar on Thursday morning. They consisted of James Stewart and James Wallace and two others. They had "bunked" in a free fight on Wednesday evening in the Richard Block where they occupy rooms. Passes by during the row say that the most obscene and filthy language was used by all the parties. After leaving the evidence before magistrate Todd inflicted a fine of \$10 on each of the two men and a \$200 fine on Mrs. Stewart. Mrs. Wallace was allowed to go free, partly it is supposed on the softening influence that her baby had on his worship. Pretty heavy fines these, but parties who will disturb a neighbor's sleep must be taught a lesson.

A. C. Fraser & Co. will make a half page announcement next week. Look for it.

What with its being court day as well as settling up day at the banks, the city was thronged with farmers on Tuesday.

H. House Dodge Walker, held county court in the city on Tuesday. There were twenty five cases on the docket for his adjudication.

The Ball Family concert tonight in roller rink. The press of the various cities and towns in which they have given concerts, speak well of them.

Mr. J. H. Bouchard, accompanied by his wife and children, left on Saturday evening for Victoria, B.C., where he intends residing in the future.

Thos. Green intends having a disposition of horses, agricultural implements, harness, etc., on his farm, sec. 20, 8, 19, some day this month. Look out for his advertisement later on.

Chief Foster submitted his report for October to the council, on Monday evening. The following is a synopsis thereof. Number of cases tried, 29; fines, and costs imposed, \$171.50; dog tax collected, \$6.25.

The time of Brandon as a marketing town keeps growing. It was only yesterday we met an old gentleman from the Pembina Mountains, who came in on the N. P. R. with forty bushels of onions to sell.

By some means on Monday afternoon a pile of manure adjoining the stable of Mr. Fred Backus on the Johnstone estate became ignited and got the fire brigade a run. The innocent blaze was extinguished by the chemical engine.

Mr. Charles Wilson, of the Sun Office, while playing with some other young men on Wednesday evening, lost work fell into the trenching in the foundation of E. R. Storg's shop near Messrs. Daly & Caldwell's office and had his face severely bruised and lacerated.

Miss Scott of the Grain Millinery establishment, has commenced a twenty per cent. discount sale for ten days to clear out a large portion of her stock of millinery. She has a large stock of holiday goods on hand and wants more room to open the stock out in, hence the discount sale.

Mr. D. M. McMillan under the amendment to the municipal act being disqualifying from holding the dual offices of Collector and Assessor, on Monday evening's council meeting handed in his resignation to the latter position. The city clerk was instructed to ask for applicants for the position. This will tell how many competent men will be willing to give their services and undertake the arduous work at and for the munificent sum of \$200 per annum.

Eastern excursions - The C.P.R. announce that they will this year again run a series of Autumn excursions to Ontario points and Montreal, commencing Nov. 18th, and thereafter daily until Dec. 1st. The rate to be in effect from Brandon is \$40 for the round trip. Tickets to be first class and good to return within 90 days, but may be extended for a further period on payment of a small additional amount. Special rates will also be made by the C.P.R. Co. to points in the Maritime provinces this building passengers to visit there at a remarkably low rate of fare.

Todd and the Great Northern Railway are to the front with their cheap and excursion on all points in Ontario and Quebec and for three months with privilege of stopping off when and where you like both going and coming. Tickets \$40 for the round trip from Brandon and your choice of route, through St. Paul and Chicago. By using these Excursion tickets, Mr. Todd can give a very cheap rate to the old country. So him before you buy.

The fall session of the assizes for the Western Judicial District was opened here on Tuesday morning by Chief Justice Taylor. The Grand Jury being empaneled Mr. J. A. Christie was chosen foreman thereof. His Lordship's address to the jury was concise and full of instructions as to their duties. This being ended the court adjourned until 10 a.m. yesterday. There are but a few minor criminal cases to come before the court and it is expected that the business will be completed this week.

Mrs. Hamman and family left on Tuesday morning for California, where they intend to reside in the future. Mr. Hamman will remain in the city until later on in the winter, when he expects to rejoin his family on the Pacific slope. The Ladies Aid of the Methodist congregation, presented Mrs. Hamman before a leaving with a flattering address and a more substantial testimonial. Her son, Walter, who has been in the employ of Mr. Robert Wilson, hardware merchant, received from that gentleman a very flattering testimonial, as to his business ability and steady habits, that will be of much service to the young man in his new home.

MARRIED.
LESLIE WYNNE, of the Manor, Nov. 7th, by Rev. A. C. Upham. Mr. Norman Leslie, to Miss Ella Winters, all of Brandon.

Mr. Ray Edwards, on Wednesday, Oct. 29th, at the residence of the bride's father, Mr. J. A. McRae, of Carberry Plains, Mr. George A. Edwards, to Miss Angelina McRae. The Rev. F. M. Finn officiated.

Manitoba Farm for Sale.
100 acres of the wheat land, unimproved, 2 miles N.W. from Emerson, Manitoba, our most cultivated farms, and within easy reach of schools, churches, markets, etc. It is the N. E. Quarter Section 2, Township 1, Range 2 East, Price \$10000. Purchaser can pay for cash and balance in mortgage. Enquire this office.

LOST.
I have the slaughter house yard of the miller, signed a red beaver marked X on the off hip. When lost on the morning of the 2nd. Any one giving information as to where the beaver was killed, will be rewarded.
J. S. BELL & IRONSHIRE, Brandon.
Oct. 27th, 1898.
